DTC Supplier Code of Conduct

GENERAL STANDARD

INTRODUCTION AND PURPOSE

DTC World Corporation Pte Ltd sources gifts and promotional items on a worldwide basis, especially China. We therefore recognise that our supply chain activities have a broad impact and that our responsibilities extend beyond our own operations and into those of our suppliers. We also recognise that there are local and national differences in standards in relation to many aspects of a supplier's business, however there are a number of minimum standards that must be achieved by all and are set out in this policy.

DTC is committed to ethical business practices and we hold our suppliers to the same high standards. It is our policy to comply with the relevant laws and regulations of the countries which we operate in and to conduct our business activities in a responsible and ethical manner.

Our Code of Conduct declares that DTC expects its suppliers to uphold the policies of DTC concerning compliance with all applicable laws, respect for human rights, environmental conservation and the safety of products and services. DTC expects all suppliers to conduct their business in a socially responsible manner and to strive to meet or even exceed the above expectations.

DTC SUPPLIER CODE OF CONDUCT

DTC Supplier Code of Conduct establishes standards to ensure that working conditions in the supply chain are safe, that workers are treated with respect and dignity, and that business operations are environmentally responsible and conducted ethically.

The Code is made up of five sections. Sections A, B and C outline standards for Labour, Health and Safety, and the Environment, respectively. Section D adds standards relating to business ethics and Section E outlines the elements of an acceptable system to manage conformity to this Code.

A) LABOUR

Suppliers are committed to uphold the human rights of workers, and to treat them with dignity and respect as understood by the international community. This applies to all works including temporary, migrant, student, contract, direct employees, and any other type of worker.

The labour standards are:

1. Freely Chosen Employment

Forced, bonded (including debt bondage) or indentured labour or involuntary prison labour: slavery or trafficking of persons shall not be used. This includes transporting, harbouring, recruiting, transferring or receiving vulnerable persons by means of threat, force, coercion, abduction or fraud for the purposes of exploitation. All work must be voluntary, and workers shall be free to leave work at any time or terminate their employment. Workers must not be required to surrender any government-issued identification, passports or work permits as a condition of employment. Excessive fees are unacceptable and all fees charged to workers must be disclosed.

2. Child Labour Avoidance

Child labour is not to be used in any stage of manufacturing. The term “child” refers to any person employed under the age of 15 (or 14 where the law of the country permits), or under the age for completing compulsory education, or under the minimum age for employment in the country, whichever is greatest. The use of legitimate workplace apprenticeship programs, which comply with all laws and regulations, is supported. Workers under the age of 18 shall not perform work that is likely to jeopardize the health or safety of young workers.

Email : enquiry@dtc.com.sg
Website : www.dtcworld.com.sg
Co. Reg. No. 200602269R

3. Working Hours

Studies of business practices clearly link worker strain to reduced productivity, increased turnover and increased injury and illness. Workweeks are not to exceed the maximum set by local law. Further, a workweek should not be more than 60 hours per week, including overtime, except in emergency or unusual situations. Workers shall be allowed at least one day off per seven-day week.

4. Wages and Benefit

Compensation paid to workers shall comply with all applicable wage laws, including those relating to minimum wages, overtime hours and legally mandated benefits. In compliance with local laws, workers shall be compensated for overtime at pay rates greater than regular hourly rates. Deduction from wages as a disciplinary measure shall not be permitted. The basis on which worker are being paid is to be provided in a timely manner via pay stub or similar documentation.

5. Humane Treatment

There is to be no harsh and inhumane treatment, including any sexual harassment, sexual abuse, corporal punishment, mental or physical coercion or verbal abuse of workers: nor is there to be the threat of any such treatment. Disciplinary policies and procedures in support of these requirements shall be clearly defined and communicated to workers.

6. Non-Discrimination

Supplier should be committed to a workforce free of harassment and unlawful discrimination. Companies shall not engage in discrimination based on race, colour, age, gender, sexual orientation, ethnicity, disability, pregnancy, religion, political affiliation, union membership or marital status in hiring and employment practices such as promotions, rewards, and access to training. In addition, potential workers should not be subjected to medical tests that could be used in as discriminatory way.

7. Freedom of Association

Open communication and direct engagement between workers and management are the most effective ways to resolve workplace and compensation issues. The rights of workers to associate freely, join or not join labour unions, seek representation and join workers' councils as well as right of collective bargaining in accordance with local laws shall be respected. Workers shall be able to openly communicate and share grievances with management regarding working conditions and management practices without fear of reprisal, intimidation or harassment.

B. HEALTH and SAFETY

Suppliers recognize that in addition to minimizing the incidence of work-related injury and illness, a safe and healthy work environment enhances the quality of products and services, consistency of production and worker retention and morale. Suppliers also recognize that ongoing worker input and education is essential to identifying and solving health and safety issues in the workplace.

The health and safety standards are:

1. Occupational Safety

Worker exposure to potential safety hazards (eg. electrical and other energy sources, fire, vehicles, and fall hazards) are to be controlled through proper design, engineering and administrative controls, preventative maintenance and safe work procedures (including lockout/tag out and ongoing safety training. Where hazards cannot be adequately controlled by these means, workers are to be provided with appropriate, well-maintained personal protective equipment. Workers shall not be disciplined for raising safety concerns.

2. Emergency Preparedness

Potential emergency situations and events are to be identified and assessed, and their impact minimized by implementing emergency plans and response procedures, including: emergency report, employee notification and evacuation procedures, worker training and drills, appropriate fire detection and suppression equipment, adequate exit facilities and recovery plans.

3. Occupational Injury and Illness

Procedures and systems are to be in place to prevent, manage, track and report occupational injury and illness, including provisions to: a) encourage worker reporting; b) classify and record injury and illness cases; c) provide necessary medical treatment; d) investigate cases and implement corrective actions to eliminate their caused; and d) facilitate return of workers to work.

4. Industrial Hygiene

Worker exposure to chemical, biological and physical agents is to be identified, evaluated, and controlled. Engineering or administrative controls must be used to control overexposures. When hazards cannot be adequately controlled by such means, worker health is to be protected by appropriate personal protective equipment programs.

Email : enquiry@dtc.com.sg
Website : www.dtcworld.com.sg
Co. Reg. No. 200602269R

5. Physically Demanding Work

Workers exposure to the hazard of physically demanding task, including manual material handling and heavy or repetitive lifting, prolonged standing and highly repetitive or forceful assembly task is to be identified, evaluated and controlled

6. Machine Safeguarding

Production and other machinery shall be evaluated for safety hazards. Physical guards, interlocks and barriers are to be provided and properly maintained where machinery presents an injury hazard to workers.

7. Sanitation, Food, and Housing

Workers are to be provided with ready access to clean toilet facilities, potable water and sanitary food preparation, storage facilities and eating facilities. Workers dormitories provided by the Suppliers or a labour agent are to be maintained clean and safe, and provide with appropriate emergency exit, hot water for bathing and showering, and adequate heat and ventilation and reasonable personal space along with reasonable entry and exit privileges.

C. ENVIROMENTAL

Suppliers must recognize that environmental responsibility is integral to producing world class products. In manufacturing operations, adverse effects on the community, environment and natural resources are to be minimized while safeguarding the health and safety of the public.

DTC's suppliers and business partners must comply fully with all relevant and applicable laws, regulations, permits and authorisations governing environmental issues. They must conduct their business in a way that is consistent with DTC's environmental policy.

The environmental standards are:

1. Environmental Permits and Reporting

All required environmental permit (e.g. discharge monitoring), approvals and registrations are to be obtained, maintained and kept current and their operational and reporting requirements are to be followed.

2. Pollution prevention and Resource Reduction

Waste of all types, including water and energy, are to be reduced or eliminated at the source or by practices such as modifying production, maintenance and facility processes, materials substitution, conservation, recycling and re-using materials.

Best Practices

- *Factories should develop and implement energy management and conservation procedures for the factory. The Program should address the monitoring and review of energy usage, setting goals, and plans for improving energy efficiency, and should include provisions for comparing actual performance against the goals. The Program should include all processes, lighting, compressed air systems, heating, ventilation, and air conditioning systems, as well as fuel usage in combustion equipment.*
- *Factories should develop and implement in a program designed to maximise the water use efficiency at the factory*
- *Factories should identify opportunities to reduce pollutant loading and toxic chemical loading in discharges by recycling and reuse, product selection, and process modification.*

3. Hazardous Materials

Chemical and other materials posing a hazard if released to the environment are to be identified and manage to ensure their safe handling, movement, storage, use, recycling or reuse and disposal.

Best Practices

- *Factories must have in place procedures to safely receive and handle hazardous materials that are delivered to the factory*
- *Factories must have in place appropriate and adequate spill response equipment and procedures, in order that any hazardous material spills or releases can be safely and adequately responded to in a timely manner*

4. Industrial Wastewater and Solid Waste

Wastewater and solid waste generated from operations, industrial processes and sanitation facilities are to be characterized, monitored, controlled and treated as required prior to discharge or disposal.

Best Practices

- *Factories should develop a water balance across the factory in order to ensure that all wastewater and sewage is being captured and treated to the Recommended Effluent Standards*
- *Factories should develop and implement waste minimization and source reduction procedures in order to minimise the amount of solid and hazardous waste generated by the factory*

Fax : 6397 5819
Email : enquiry@dtc.com.sg
Website : www.dtcworld.com.sg
Co. Reg. No. 200602269R

5. Air Emissions

Air emissions of volatile organic chemicals, aerosols, corrosives, particulates, ozone depleting chemical and combustion by-products generated from operations are to be characterized, monitored, controlled and treated as required prior to discharge.

Best Practices

- *Open burning of solid wastes should be avoided*
- *Factories should identify opportunities to reduce pollutants toxic chemicals in air discharges product selection, product substitution, and process modification.*

6. Product Content Restrictions

Suppliers are to adhere to all applicable laws and regulations and customer requirements regarding prohibition or restriction of specific substances including labelling for recycling and disposal.

D. ETHICS

To meet social responsibilities and to achieve success in the marketplace, suppliers are expected to uphold the highest ethical standards that include:

1. Business Integrity

The highest standards of integrity are to be upheld in all business dealings. Suppliers shall have a zero-tolerance policy towards all forms of bribery, corruption, extortion and embezzlement (covering promising, offering, giving or accepting any bribes). All business dealings should be performed in a transparent manner and shall be transacted to reflect compliance with anti-corruption laws.

2. No Improper Advantage

Bribes or other means of obtaining undue or improper advantage are not to be offered or accepted.

3. Disclosure of Information

Information regarding business activities, structure, financial situation and performance is disclosed in accordance with applicable regulations and prevailing industry practices. Falsification or records or misrepresentations of conditions or practices in the supply chain are unacceptable. All suppliers that have access to confidential data are required to sign on the Data Protection Confidentiality Agreement.

Co. Reg. No. 200602269R

4. Intellectual Property

Intellectual property rights are to be respected; transfers of technology and know-how is to be done in a manner that protects intellectual property rights.

5. Fair Business, Advertising and Competition

Standards of fair business, advertising and competition are to be upheld. Means to safeguard customer information should be available.

6. Protection of Identify

Programs that ensure the confidentiality and protection of supplier and employee whistle-blower are to be maintained.

7. Privacy

Suppliers are committed to protecting the reasonable privacy expectations of personal information of everyone suppliers do business with, including suppliers, customers, consumers and employees. Comply with privacy and information security law and regulatory requirements when personal information is collected, stored, processed, transmitted, ad shared.

8. Non-Retaliation

Suppliers should have a communicated process for their personnel to be able to raise any concern without fear of retaliation.

9. Financial Records, Money Laundering and Insider Trading

All business and commercial dealings are transparently performed and accurately recorded in the supplier's books and records. There is no actual or attempted participation in money laundering. No confidential information in the supplier's possession regarding DTC is used to either engage in or support insider trading

E. MANAGEMENT SYSTEM

Suppliers shall adopt or establish a management system whose scope is related to the content of this Code. The management system shall be designed to ensure (a) compliance with applicable laws and regulations; (b) conformance with this Code and (c) identification and mitigation of operational risks related to this Code. It should also facilitate continual improvement.

DTC World Corporation Pte Ltd

Email : enquiry@dtc.com.sg
Website : www.dtcworld.com.sg
Co. Reg. No. 200602269R

The management system should contain the following elements:

1) Company Commitment

Corporate social and environmental responsibility policy statement affirming Supplier's commitment to compliance and continual improvement are endorsed by executive management.

2) Management Accountability and Responsibility

Supplier clearly identified company representative(s) responsible for ensuring implementation of the management systems and associated programs. Senior management reviews the status of the management systems on regular basis.

3) Legal Requirements

A process of identify, monitor and understand applicable laws and regulations, including the requirements of the Code.

4) Risk Assessment and Risk Management

Process to identify the environmental, health and safety and labour practice and ethics risks associated with Supplier's operations. Determination of the relative significance for each risk and implementation of appropriate procedural and physical controls to the identified risks and regulatory requirements.

5) Improvement Objectives

Written performance objectives, targets and implementation plans to improve the Supplier's social environmental performance including a periodic assessment of Suppliers performance in achieving those objectives.

6) Training

Programs for training managers and workers to implement Supplier's policies, procedures and improvement objectives and to meet applicable legal and regulatory requirements.

7) Communication

Process for communicating clear and accurate information about Supplier's performance, practices and conditions covered by this Code and to foster continuous improvement.

Co. Reg. No. 200602269R

8) Worker Feedback and Participation

Ongoing processes to assess employees' understanding of and obtain feedback on practices and conditions covered by this Code and to foster continuous improvement.

9) Audits and Assessments

Periodic self-evaluations to ensure conformity to legal and regulatory requirements, and to content of the Code related to social and environmental responsibility.

10) Corrective Action Process

Process for timely correction of deficiencies identified by internal or external assessments, inspections, investigations and reviews.

11) Documentation and Records

Creation and maintenance of documents and records to ensure regulatory compliance and conformity to company requirements along with appropriate confidentiality to protect privacy.

BREACH OF SUPPLIER CODE OF CONDUCT

Suppliers will be required to confirm that they have read and understood to the policy and that they comply with its terms as part of their ongoing contractual. All relevant suppliers will be required to attend training to support the guidance in this policy.

Should any Supplier be found to be in breach of this Supplier Code of Conduct, we have the right to treat this as a material breach of the contract. Depending on the gravity of the breach, the matter is escalated internally with actions ranging from discussions with the Supplier around remediation steps to termination of the contract or services with DTC.

COLLABORATION

- Where appropriate, DTC is prepared to work with suppliers to achieve collaborative relationships for the benefit of both businesses
- We welcome, rather than penalise, suppliers who strive to identify areas of non-conformance and develop proactive plans to achieve compliance
- Supplier Code of Conduct is issued to our suppliers
- Assessments are undertaken with regard to compliance with company standards as part of the vetting process for new suppliers
